-  **shopify** • for Merchants Who Sell Online
-  **WISK** • for Bars
-  **twilio** • for Text Messaging
-  **Piece meal** • for Advanced Inventory Control

# Online Ordering

## MYR ONLINE

- Online ordering with your restaurant's brand
- Access via iOS, Android, or Website
- Orders are sent directly to the POS
- Handles multiple locations and brands
- Has all the essentials – pictures, tips, notes, etc.
- Can be used for pick-up, delivery, dine-in, curbside
- No third-party (billing, support, development)

## MYR 3RD PARTY DELIVERY INTEGRATION

- Connect UberEats, Doordash, and other platform orders directly to your MYR POS
- Dual pricing in case you need to charge higher for online orders
- Synchronize your menu instead of logging into separate platforms
- Lower your tablet count
- All of your reports are now in one through MYR's Admin Panel

### Direct Integrations

# ConsumerChoice

## DUAL PRICING

Dual Pricing provides the ability to pass on some, or all of the cost of acceptance to the cardholder with a refreshing alternative: **give the customer a clear choice** to pay with Cash or Card.

1. The consumer is presented with dual-pricing and decides the payment method for the transaction.

2. The customer will have the choice to pay one price for cash or a slightly higher price for a card transaction.

### Flexibility in Pricing

ConsumerChoice enables businesses to choose to pass some or all the cost of acceptance.

### Give Your Consumers The Choice

Empower consumers with the choice to select cash or card at checkout through clear dual pricing.

### ZERO Processing Costs

Eliminate processing costs and net settle the total price of sale daily.

## THINGS TO KNOW

1. Businesses do not have to raise default pricing, simply give the consumer the option to pay cash or with a card.
2. The card price includes the cost of payment acceptance to the business.
3. There is no line-item fee added to the final receipt.

# 3rd Party Delivery Integration

## STOREFRONT ADVANTAGES

Without integration, you need to:

- ✗ Manually accept new orders
- ✗ Manually re-punch the order into your POS
- ✗ Manually send the order to the Kitchen
- ✗ Have a tablet for each type of 3rd Party Delivery company

With MYRs integration, you can:

- ✓ Accept the order automatically
- ✓ Orders are automatically checked-out and printed
- ✓ Orders are automatically sent to the Kitchen from MYR Master
- ✓ Decrease your tablet count and have a cleaner, simpler set up

## ADMIN PANEL ADVANTAGES

Without integration, you need to:

- ✗ Re-create the same menu for each delivery platform
- ✗ Manually adjust prices if you want to charge more for your online delivery orders
- ✗ Manually track reports between your 3rd party delivery platform and your POS

With MYRs integration, you can:

- ✓ Simply click to activate menu-sync with all of your delivery platforms from MYR's Admin Panel  
*(no need to login anywhere else!)*
- ✓ Enter a secondary price for each 3rd Party Delivery Platform type from MYR's Admin Panel  
*(no need to login anywhere else!)*
- ✓ See all of your 3rd party delivery sales automatically in your MYR reporting
